PROFESSIONAL PROFILE

Full Stack AI Engineer with 5+ years of experience designing, building, and leading the development of scalable software systems, AI-powered products, and automation solutions.

Experienced across the full software lifecycle, from system architecture and backend engineering to frontend development, cloud deployment, and AI/ML integration. Proven ability to take ownership of mission-critical systems, collaborate with cross-functional teams, and deliver high-impact solutions for startups, consulting projects, and enterprise environments.

Alongside industry experience, I have served as a University Lecturer, teaching Artificial Intelligence, Machine Learning, Full Stack Development, and Software Engineering while mentoring future engineers through real-world, project-based learning.

PROFESSIONAL EXPERIENCE

Full Stack AI Engineer	CREAI Remote	Nov 2025 - Present
- Lead the development of AI-powered products and mission-critical logistics systems supporting production operations. - Own core business modules including routing, services, and trip management, serving as the backbone of large-scale logistics workflows. - Design, develop, and maintain scalable applications and APIs using React, Ember.js, Laravel, PHP, and Python. - Collaborate with cross-functional teams of software engineers, product designers, product owners, delivery managers, and AI specialists to deliver production-ready solutions. - Drive technical decisions, architecture discussions, and AI integration into production environments.		
University Lecturer	Universidad Creativa de Costa Rica	Apr 2022 - Present
- Teach Artificial Intelligence, Machine Learning, Python, AWS, Full Stack Development, and UX Design. - Designed and authored the complete UX Design Certification program. - Mentor students in building production-ready software and AI applications. - Integrate real-world engineering practices into academic programs through project-based learning.		
Software Engineer (Freelance)	Self-Employed	Jun 2020 – May 2024
- Delivered more than 15 custom software solutions for startups and organizations. - Designed and built scalable web applications, automation platforms, APIs, and cloud-native solutions. - Led projects from requirements gathering and architecture through deployment and maintenance. - Collaborated directly with founders and stakeholders to transform business challenges into scalable digital products.		
Software Engineer	Qubo Systems	Jun 2023 – Feb 2024
- Led the technical implementation of multiple full-stack initiatives. - Coordinated a team of five developers while leading development of a payroll management platform for a private university. - Designed a machine learning module for automated faculty salary classification. - Built a faculty information platform integrated with the university's public website. - Developed the encryption module for a banking mobile point-of-sale solution.		

Full Stack Developer EasyHop May 2022 – Jan 2023

- Developed web and mobile applications for drivers and passengers.
- Built geolocation, routing, and pickup management features using OpenStreetMap technologies.
- Led a UX research initiative that influenced strategic investment in the driver's web platform.
- Contributed across frontend, backend, and mobile development.

EDUCATION

Bachelor's Degree in Computer Engineering (In Progress) - Tecnológico de Costa Rica (TEC)

Relevant Coursework: Artificial Intelligence, Software Architecture, Distributed Systems, Computer Networks, Operating Systems, Embedded Systems.

Industrial Electronics Technician - Colegio Técnico Profesional de Dulce Nombre

Focused on industrial automation, control systems, electronics, embedded systems, and electrical engineering fundamentals.

CERTIFICATIONS

IBM AI Developer

Claude Code in Action (Anthropic)

Introduction to Agent Skills (Anthropic)

AI Fluency Framework & Foundations (Anthropic)

Teaching the AI Fluency Framework (Anthropic)

Google IT Automation with Python

Machine Learning with Python

Scrum Foundation Professional Certification (SFPC)

Full Stack Web & Multiplatform Mobile App Development (HKUST)
